Australian furniture brand KING Living debut as part of London Design Festival 2022

Australia's most awarded furniture maker, **KING Living** is thrilled to introduce its innovative collection of timeless Australian designs to a UK audience as part of London Design Festival 2022.

A household name down under, KING are renowned for their state-of-the-art fully modular sofas whose pioneering frames are constructed with the same hard-wearing steel used in luxury European cars. Backed by a 25-year warranty, KING sofas are built to outlast and outperform any ordinary sofa.

Founded in 1977 in Sydney by David King and his mother, KING is still a family-owned and operated Australian business. Now led by David, the brand is one of the few Australian furniture makers who design locally with a focus on designs that beautifully reflect the Australian lifestyle.

Experience the ultimate KING Discovery Tour and learn how KING built a reputation for exceptional craftsmanship, functionality, comfort, and sustainability.
