Fall Winter 21—22

SENZA TEMPO

CHAPTER 31

# Fall Winter 2021—2022

## SENZA TEMPO

Emotions, romantic love, charm, precious and beautiful objects are made unique by a **timeless** beauty. To collect, to elaborate and then to perfect, to create and to transform, these words relate to a specific creativity coming from feelings and turning objects and places into an emotional experience. Technical skills, craftsmanship and attention to details help making this possible.

In the process which turns emotion into creation, time is essential. Time is constant movement, transformation and change, but it's also an atmosphere, a subtle sensation that pervades us when experiencing a landscape, an object, a fragrance, a room. That atmosphere most easily found at home, the place of the soul for excellence. Society Limonta draws from the past without nostalgia and creates a Timeless collection, living in the present and imagined for the future.

Textiles, fashion and interior design come together in Society's FW21-22 collection, to take us on a journey exploring style and matter. Soft and elegant colours dress the home with the typical atmosphere of the old days. The new shades Violetta, Quarzo, Balena, Pacifico meet the neutral colours Crab and Cacao creating chromatic variants of lilac, dust grey, deep blue, sage green and a warm brown fading into pink. Society sets its visual narrative inside spaces full of cinematographic charm designed by Daniele Daminelli, where matching or contrasting shades, textures and fabrics meet in aesthetical harmony, with always an eye on design. Daminelli's houses, with their strong and immersive colours, are the perfect scenario for this **Timeless collection**.

# Bedroom

A home is where life takes place, a visible space shaped according to our own invisible essence. Among all spaces, the bedroom is the most private room, where dreams and emotions encounter, where we undress from our appearances and become ourselves. Society gives a hint on how to decorate it but leaves us free to interpret it according to our own taste. On the bed, layers of solid colours and patterns are inspired by the past and recreate it. From Limonta's archives, fabrics from the '60s, the '70s and the '80s inspire both the printed pillow cases and the jacquard pillow cases and duvet cover, where the decorative element is woven within the fabric. **Nap Mag** and **Nap Petal** pillow cases reproduce big flowers from the '80s, **Nap Pul** and **Nap Spin** bring on the bed a revisited edition of the printed scarves from the '60, while the reference to the '70s appears with the chevron, the pattern of parallel zig zag lines found on the double-faced pillow cases **Nap Zig Zag** and on **Sevr**, the jacquard duvet cover and pillow cases available in Cacao and Balena. **Linea** is a grosgrain wool blanket with clean and essential lines, while **Scot** plaid, in jaspè wool, is the contemporary interpretation of the traditional tartan pattern.

# Table

Sitting together at the table and sharing a meal is the purest pleasure of living in the moment; a daily routine which suspends the rules of time. According to Society, decorating the table is the ideal opportunity to combine quality and beauty with perfect balance. The new tablecloths have a strong visual impact and an unusual look, thanks to unconventional patterns, asymmetries and eccentric art printed on abaca gauze, a natural and sophisticated fabric. On one hand, **Haus**, with a pattern from the '60s inspired by the Bauhaus lines, divides the table in two chromatically opposite halves connected by the presence of asymmetric geometrical shapes. **Napua**, on the other hand, puts a floral sketch of flowers on a houndstooth background, resulting in a vintage and contemporary look. To celebrate the Christmas holidays in a warm and cosy atmosphere, **Brait** is the almost see-through tablecloth made sparkling by fine threads of gold lurex. The crockery collection designed by Beatrice Rossetti grows with **Spoon**, a big spoon with a slightly irregular shape. Finally, **Rito** is the result of the collaboration between Society and designers Chiara Mauri and Andrea Randazzo from Storie Design Studio for OLTRE Society Design Collection; the linen basket at one end of this cutting board is the most useful accessory to collect the freshly sliced bread and serve it on the table.

# Bathroom

The bathroom is the place where to relax with an invigorating bath; the place to take some time to stare at your image reflected in the mirror; and a meditating place where to regenerate both body and mind. For this room, Society selects the most refined and natural fabrics and, through a research for new and exquisite design and aesthetics, reinterprets them to create products for the well-being of body and soul. **Shine** brings a little light to the ten pre-existing bathroom collections; a towel in terry linen, made sparkling thanks to a dyed yarn woven onto a neutral base. Linen is woven into a thick terry towel to wrap up your body in a pleasant hug of natural warmth.

## Accessories

Like a perfect word in a poem, a scarf completes our style with a touch of harmony. And, in Society’s philosophy, even a little detail makes a big difference. Not only plain wool, mohair, cashmere or silk, but the expert mix and combination of fibres woven in different ways for innovative results. **Flo**, **Mohair** and **Mail** scarves, available in soft autumnal colours, are soft caresses on your skin. The cotton canvas bags **Mag Hang** and **Rombo Hang**, with their respective floral and geometric pattern, add to every outfit a touch of vintage romanticism and contemporary bon ton.
