

Graham & Brown Celebrates 80 Years of Design at London Design Festival

September 2026: Visitors to the London Design Festival are invited to discover Graham & Brown's Design & Colour of the Year 2027, alongside a special 80th Anniversary Gallery Exhibition.

To mark its 80th anniversary and the launch of its annual Design & Colour of the Year, Graham & Brown has transformed eight locations and businesses across the UK that are also celebrating their 80th anniversary.

Celebrating heritage, creativity and craftsmanship, the project offers a playful reimagining of the Wonders of the World while honouring the people, places and design that have shaped the past eight decades.

Located in the heart of the Chelsea Design District, the Graham & Brown showroom will showcase the 80th Anniversary Gallery Exhibition as well as the new Autumn/Winter Verdant Atelier Collection. Visitors can explore the latest wallpaper, mural, paint, pouffe footstools and fabric collections, enjoy a complimentary coffee and meet the team for expert interior design advice and inspiration.

Iona Graham, Brand & Marketing Controller, adds:

"It has been a year since we opened our flagship London showroom on the King's Road, making this year's 80th anniversary celebrations even more special. By marking this milestone alongside other iconic places that have also reached 80 years, we're proud to showcase eight decades of design heritage at this year's London Design Festival.

We're honoured to be part of such a celebrated event and look forward to sharing our rich history, latest collections and passion for creativity with visitors taking part in the festival."
