

SCULPTING WITH LIGHT

Ceramic designer-maker Rosie May presents sculptural porcelain lighting at ND selects, Kachette, Shoreditch, from 15-17 September 2026, as part of Shoreditch Design Week.

ABOUT

Rosie May is a ceramic designer-maker rooted in a practice that bridges craft and contemporary design. Her work explores lighting as a spatial tool, using the natural translucency of porcelain to influence the emotional quality of an interior space.

Drawing on organic forms and biophilic design, Rosie looks to the natural world as a source of both form and atmosphere, creating work that considers how lighting can bring warmth, stillness and calm into the home.

Pebble light, porcelain
