Lozi Work/shop  
280 Hackney Road, London, E2 7SJ  
13th - 21st September 2025

An exhibition tracing Lozi's evolving approach to bent lamination, as both a design language and production technique.

Journey with us through a curated selection of original prototypes and pieces that explore the potential of bent plywood.

The exhibition also offers a preview of our forthcoming 2026 furniture collection - a glimpse into the next chapter of material-led design at Lozi.
