

FOR IMMEDIATE RELEASE

Sculpting Stories: Vessels Using the Coiling Technique

Pottery Workshops at Greenwich Design District as Part of London Design Festival 2025

Pottery Studio LDN are delighted to announce their participation in **London Design Festival 2025**, one of the world's leading celebrations of design and creativity. As part of this year's programme, Pottery Studio LDN will be hosting a series of hands-on pottery workshops titled **"Sculpting Stories: Vessels Using the Coiling Technique"** at the studio in the heart of **Greenwich Design District**.

These workshops invite participants to discover the timeless technique of **coiling** — an ancient method of pottery that predates the potter's wheel and remains a vital part of contemporary ceramic practice. Guided by an experienced ceramicist, attendees will learn how to build vessels by hand using coiled rolls of clay, gradually shaping and refining their pieces into unique functional or sculptural forms.

From bold, organic shapes to minimalist, refined designs, this workshop is an opportunity to explore form, texture, and creativity in a relaxed, supportive environment. Whether you are completely new to ceramics or looking to expand your practice, *Sculpting Stories* offers a tactile, meditative experience that celebrates craft, process, and personal expression.

Workshop Details:

 **Location:** Pottery Studio LDN, 1.3, building A4, 10 Monro Way, SE10 0EJ

 **Dates:** 14th, 16th, 20th September

 **Time:** 11am-1pm & 2.30pm-4.30pm

 **Booking:** <https://pottery-studio.co.uk/products/london-design-festival-sculpting-stories-vessels-using-the-coiling-technique>

 **Price:** £45. **All materials provided | Kiln firing included**

Join us in shaping more than just clay — shape a story, shape a moment, shape a memory.
