

**Carved by Water, Shaped by Time**  
**AVANTELIER at London Design Festival 2025**

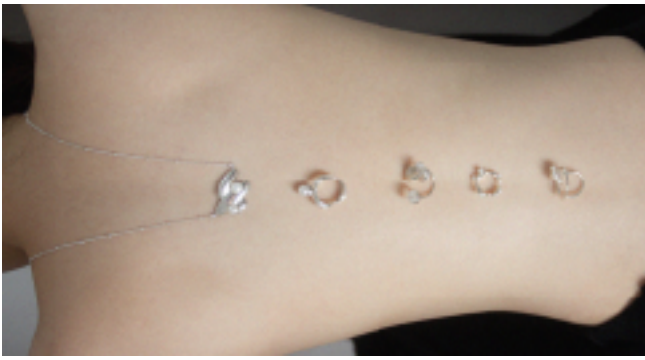

London, September 2025 – AVANTELIER presents Carved by Water, Shaped by Time, a concept jewellery popup at the London Design Festival 2025. The showcase brings together a global selection of handcrafted jewellery inspired by water's quiet strength and timeless motion.

Drawing from the ancient wisdom of 滴水穿石 (dī shuǐ chuān shí) – “constant drops can carve stone” – the collection reminds us that, just as water's gentle perseverance transforms landscapes over time, small, consistent actions can create meaningful change.

AVANTELIER curates pieces that reflect this theme of resilience and flow, highlighting jewellery as wearable art that captures both nature's raw elegance and its emotional depth. Inspired by the fluid motion of waves and the serene beauty of natural waterscapes, each piece embodies unity, craftsmanship, and a call for renewed environmental awareness.

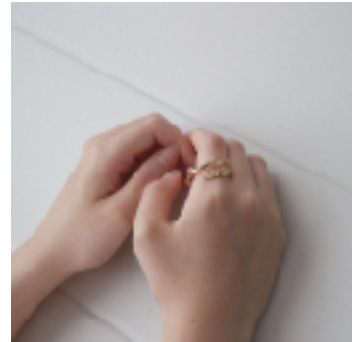

### Event Details

23 Golden Square, London, W1F 9JP

3-21 September 2025

11:00 AM - 7:00 PM

Visitors are invited to experience how water – ever-shifting, resilient, and deeply connected to human emotion – can be translated into contemporary jewellery design, celebrating creativity, craft, and sustainability at the heart of London Design Festival.
