## ABOUT THE NEW CRAFTMAKER

### *Exceptional British Craft*

The New Craftmaker presents a curated portfolio of hand-crafted furniture, lighting, and objects, developed in close collaboration with our makers, celebrating contemporary craft and design from across the British Isles to champion traditional skills and vernacular making practices.

Together we create unique exclusive collections through a wide palette of artisanal making processes, brought together in our showroom on Pimlico Road, at the heart of London's interiors district.

### *What We Do*

From the finest selected woods to woven basketry and hand-loomed textiles, to crafted ceramic lighting and turned wooden vessels, heritage craft skills are central to The New Craftmaker's ethos.

The collections are imbued with cultural meaning entwined with history and place, honouring the raw beauty of natural materials, transforming them into pieces of understated luxury and elegance for a contemporary home.

We are open year-round and work closely with our makers to evolve and grow our collections. Please do visit our website, follow us on Instagram, and we very much welcome you to come and visit our showroom in Belgravia.
