

Delou comes to London Design Festival

This year the brand new design phenomenon known as Delou will be exhibiting their works for the first time.

Previously unreleased to the public eye, the exhibition will showcase select furniture and lighting items as a part their official launch and as a prerequisite to their most exciting works.

Amongst assorted glasswares and wooden accessories, the exhibition will showcase the brand new Woogle Chair, Rooty Stool, and Bobo Table – each championing their own character and creating a living space.

Perfect for contemporary furniture and art lovers, this exhibition will be taking place from 15-17th September this year at the house of Icon, Shoreditch.
